SHADY ELBARIDY

Architect | Interior Designer | Architectural Visualizer

Khobar, Saudi Arabia | +966548042273 | shady.m258@gmail.com | LinkedIn | Instagram | Portfolio

PROFESSIONAL SUMMARY

Architectural Engineer with 5+ years of experience delivering architectural design and construction documentation for religious, residential, hospitality, and commercial projects across Saudi Arabia, the UAE, and Egypt — from concept design through authority submission and site execution, including a government-commissioned G+1 mosque in Dubai and private villas of up to 2,441 sq.m. Hands-on application of the Saudi Building Code (SBC) and local zoning on projects in Riyadh. Proficient in Revit (BIM) and AutoCAD for working and shop drawings, and in 3ds Max, Corona, and V-Ray for design visualization. Currently based in Khobar.

CORE COMPETENCIES

- Architectural design from schematic design (SD) to construction documents (CD)
- Authority submission packages — area calculations, capacity, sanitary provisions, and parking counts
- Saudi Building Code (SBC) compliance, local zoning, and Saudi urban identity guidelines
- Revit (BIM) and AutoCAD production of working, shop, and detail drawings
- Site supervision, execution follow-up, and construction quality checks
- Client, contractor, and consultant coordination throughout design and execution phases
- Space planning, material selection, and architectural visualization

EDUCATION

Bachelor of Architectural Engineering
Cairo Higher Academy of Engineering | 2016 – 2021

TECHNICAL SKILLS

AutoCAD • Revit (BIM) • 3ds Max • Corona Renderer • V-Ray • SketchUp • Lumion • Photoshop • Microsoft Office

PROFESSIONAL EXPERIENCE

Interior Designer | IKEA Saudi Arabia — Khobar, Saudi Arabia Nov 2024 – Present

- Apply architectural space-planning principles to residential room settings, developing layouts that improve circulation, usability, and visual cohesion.
- Translate client requirements into proportioned spatial layouts across multiple room typologies, working alongside cross-functional design teams.

Architect | Heroni Engineering Consultancy — Riyadh, Saudi Arabia Oct 2023 – Nov 2024

- Delivered architectural design from schematic design through construction documents (CD) for luxury villas, restaurants, and residential projects in KSA, applying Saudi Building Code (SBC) requirements and local zoning regulations.
- Produced working drawings, shop drawings, and 3D visualizations in AutoCAD and Revit (BIM), setting out structural grids and space programming requirements.

- Incorporated Saudi urban identity guidelines into residential facade and massing design.
- Conducted site visits to verify construction quality, design compliance, and project accuracy.
- Coordinated with clients, contractors, and consultants through design development and execution.
- Managed multiple projects concurrently from concept design through execution.

Architectural Designer | Engineer Adnan Saffarini Office (EAS) — Dubai, UAE Mar 2022 – Oct 2023

- Delivered the architectural design of a government-commissioned G+1 mosque in Jebel Ali, Dubai — concept design, design development, working drawings, submission documentation, and the full interior and exterior design.
- Produced the supporting submission set: built-up area calculations, prayer-hall capacity, ablution and sanitary provisions, parking counts, facade material schedules, and building sections.
- Designed villa interiors for major UAE developers, including Danube Properties, DAMAC Properties, and Meraas.
- Led the interior design of RAKEZ's new corporate headquarters, from concept design through material and finish specification.
- Developed mood boards, technical drawings, and high-end 3D visualizations using 3ds Max and Corona Renderer.
- Coordinated design details and client presentations across multiple concurrent projects.

Architectural Designer | Ebdaa Real Estate Developments — Cairo, Egypt Jan 2021 – Mar 2022

- Designed residential and commercial projects — architectural, interior, and exterior — producing schematic drawings, 3D visualizations, and presentation layouts.
- Coordinated with contractors during project execution phases, ensuring design intent and specification compliance.
- Promoted to Team Leader, supervising project distribution, design quality, and deadlines.

KEY PROJECTS

- **Government Mosque (G+1) — Jebel Ali, Dubai, UAE:** Full architectural design and submission set for a 1,329 sq.m mosque for 422 worshippers, commissioned by the Islamic Affairs & Charitable Activities Department (Government of Dubai).
- **Private Villas — Riyadh, KSA & Dubai, UAE:** Architectural design and construction documents for high-end villas of up to 2,441 sq.m — plans, elevations, sections, service blocks, and interior shop drawings.
- **Commercial & Hospitality Projects — Riyadh, KSA:** Architectural layout and interior design for F&B and retail fit-outs, including a restaurant branch and a 225 sq.m beauty salon, including ceiling, lighting, and bespoke joinery design.
- **Major Developers & Government Clients — UAE:** Residential and corporate projects for Danube Properties, DAMAC Properties, Meraas, RAKEZ, and the Government of Dubai's Islamic Affairs & Charitable Activities Department.
